

Module: <i>Developing Web Applications</i>	SID: <i>1747451</i>
Module code: <i>MOD002701</i>	First Marker: <i>Cristina Luca</i> Date: <i>07/06/19</i>

This is a summary of the things you did well in your work and some suggestions of things which you can do to improve. If you wish to discuss this feedback in person please see the ModuleTutor.

These are the things you did well:

Extensive literature review, presenting the features and limitations of the studied websites.

Very good application.

Very good selection of test cases.

You obtained a mark of 79% because:

Structure: 12 (out of 15)

Literature review: 7 (out of 10)

Design: 12 (out of 15)

Implementation: 25 (out of 35)

Testing: 13 (out of 15)

Lab works: 10 (out of 10)

Throughout your script you will see the following codes. Here is an explanation of what they mean. Please use these to guide you in your future assignments:

C1. Very good User Interface design.

C4. The database is well designed.

D2. All the case study's requirements were implemented.

Good implementation!

No extra features were implemented.

E1. The application was tested thoroughly.

You may wish to keep a note of these achievements, for use in your personal development planning.
